The Free Medical Camp was conducted successfully. We have conducted such camp for the first time and were greatly encouraged by seeing the positive response of the people.

The Health Awareness teaching was helpful for the Children and the awareness regarding the infection of various diseases to human body was more informative for them.

The community thankfully welcomed us and told us to conduct such camps on monthly basis. The camp was conducted with a purpose to spread the love of Jesus Christ and proclaim the Spiritual and Physical healing that we receive through Him alone. We did pray after we gave them medicine.

The outcome of the Medical Camp was few families got added in our local Church in Birla.

We are now thinking to have such camps in various places where we have our Charitable Service Areas. The most need place for Medical Camp with special awareness teaching on HIV / AIDS is in Zuari, Zuarinagar, Goa.

Adult Literacy programme is going on well and it has impacted the lives of those who are benefited through this programme. They are now well organized in their family life, personal life and in society.

As monthly practice we have distributed nutrition and foods to **HIV & AIDS** affected 15 families and the regular Saturday Counseling and Prayer is going on among few families.
